Responses

Specimen received by NTRL:

Specimen 134/10 (NTRL ID TC1232) with tracking tag 3A2 received by NTRL. Expect microscopy results within 2 days.

Microscopy results:

Specimen 134/10 (TC1232) Microscopy smear negative. Expect MGIT culture results within 6 weeks.

Specimen 134/10 (TC1232) Microscopy smear positive (1+). Expect LPA results within 7 days.

Specimen 134/10 (TC1232) Microscopy smear positive (4 AFB). Expect LPA results within 7 days.

LPA results:

Specimen 134/10 (TC1232) LPA results: (RIF-Sensitive) (INH-Sensitive)

Specimen 134/10 (TC1232) LPA results: (RIF-Resistant) (INH-Sensitive). Expect MGIT DST results within 6 weeks.

MGIT culture results:

Specimen 134/10 (TC1232) MGIT culture positive. Expect DST results within 3 weeks.

Specimen 134/10 (TC1232) MGIT culture negative.

MGIT DST results:

Specimen 134/10 (TC1232) MGIT DST results: (RIF-Sensitive) (INH-Resistant) (STR-Sensitive) (ETH-Resistant)
